### Detachment & the Detachment Symbol - Chapter 27

Detachment Symbol

*“So, when you **run the detachment symbol**, it’s like a cosmic condom. Yes, it is like a cosmic condom. When you call in the symbol, a bright white light shoots up one side of your body and down the other side, completely enclosing you in its protection.” – **Raz***

Detachment is a gift that keeps on giving. Detachment delinks you from all the judgments and projections you may have, hold, or contribute towards others, self, and life in general.

When you run the detachment symbol, you are free from the effects of casting forth your own thoughts of judgment and may find yourself in a place of no mind, which is beneficial to healing and the re-patterning mind and body.

**This week’s homework:** As it resonates, call on and use the Detachment Symbol in your day-to-day activities, by simply stating; “I run the detachment symbol”. \*Especially when you recognize your mind getting ‘judgmental’. Notice the effects the symbol has on your mind frame.
